

HIAB X-CLX 038

FOR YOUR UTILITY COMPANY AND MUNICIPALITY

YOUR EVERYDAY WORKING PARTNER

With the new HIAB X-CLX 038 crane, planning and managing the maintenance works for your utility company or the municipality are made easy and hassle free, with a dependable tool for your teams and your bottomline.

You want to concentrate on your activity, and that is why HIAB is the best solution for not having to think of anything else, if not your business.

Don't settle for anything less and take advantage:

- Bring and unload materials and tools to get the road work done, or carry and lift small tools or equipment that helps your municipality or utility company keep your structures up and running.
- Buying a HIAB crane, means buying a sturdy reliable equipment that never lets you down, day after day.
- The compact size is ideal for even smaller truck vehicles, leaving still plenty space for additional materials useful for the job.
- This category crane doesn't even need the permit to operate it, allowing all your staff to use it, even in case of high turnover.

If you never thought of being able to possess a HIAB crane, then this is the best occasion to re-evaluate that decision.

HIAB X-CLX 038

Simplify supplier handling

A complete package to your truck fleet, coming from one supplier with a team of professional sales people, delivering the best in terms of reliability, and customer oriented approach.

Take the best out of the relationship of working with a true solution provider.

Fit for tenders

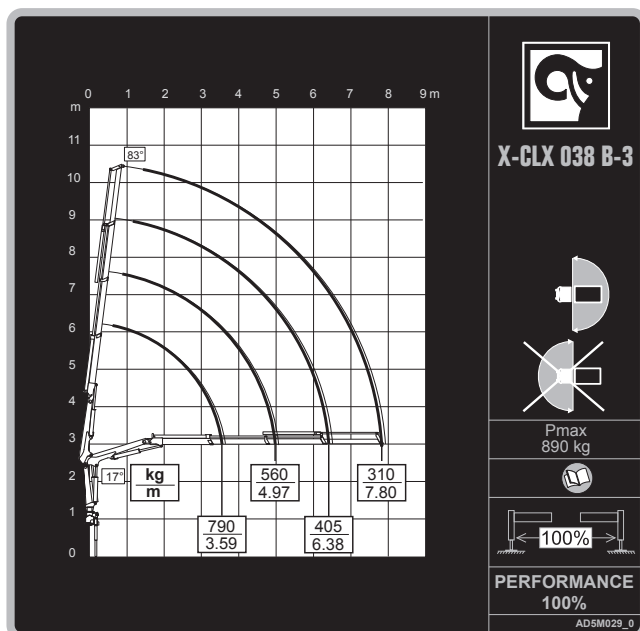

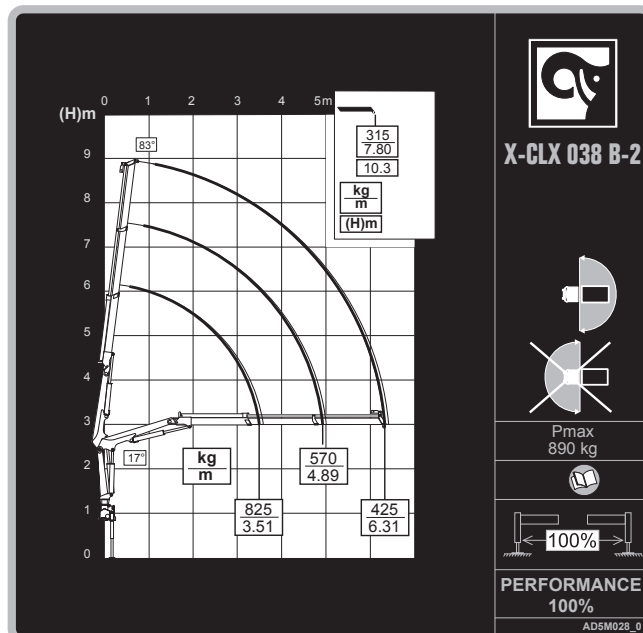

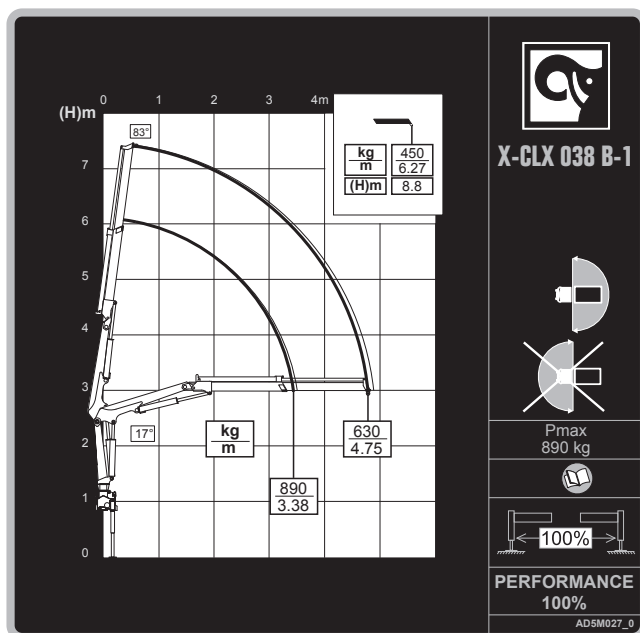

Hiab is a global corporate group which operates according to corporate citizenship standards and code of conduct for its employees. As a publicly traded company, we disclose financial results, making working with Hiab transparent, safe and trustworthy.

A safe product for operators

Among the founding key values for Hiab is the safety of its products and solutions, which is just more than simple words.

Modern safety functions and design make it one of the most careful brands among loading and lifting equipment. Reducing personnel liability is key for any operators of fleets, yet it is also our commitment to each user and operator to get back home safely.
